

LINDA MECKLENBURG: Foundation Handling Seminar
June 30th and July 1st, 2008

****PLEASE BE SURE TO READ "REGISTRATION INFORMATION" BELOW
REGARDING OPENING DATES FOR WORKING SPOTS IN THIS SEMINAR****

The purpose of this seminar is to provide an overview of Linda's handling system and hopefully provide everyone with a basic understanding of how to make it work. There will be a 4+ hour lecture/demo that will cover the "theory" and basic skills the dog must have for the system to be successful.

The second day is spent doing drills that are designed to show how to apply the system. The exercises are very basic. The purpose is NOT to perfect the skills, but to try and help everyone understand how to apply the concepts to common sequences. The intent is NOT to have each individual master each drill. Because most of the dogs won't have the foundation skills, that is not realistic. The goal is simply to give everyone an idea of how the system works.

Dogs and handlers working in these sessions must be competing at Exc/Adv level, but, of course, auditors from all levels are welcome and are highly encouraged. These seminars will focus on handling, not obstacle performance skills.

Specific needs of each individual will not be addressed as one might expect in a "regular" seminar, unless the individual is having a common problem that others might also encounter (including the auditors). In those cases, Linda will help the individual work it through to give everyone an idea of what was going wrong, why, and how to fix it.

The seminar will be taught by Linda; and if the seminar limit is reached, Daisy Peel may assist with instruction of the working session so that more can be accommodated.

Location:

- It's A Dog's World, 16024 60th St., Sumner, WA 98390

Dates:

- Monday June 30, 2008 2 to 6 pm or until finished: Lecture/demonstration (Unlimited)
